WORK EXPERIENCE

Code's Thinker | Bahawalpur, Punjab

Senior Flutter Developer | October 2024 – Present

- Delivered seamless real-time tracking, WebSocket communication, and route optimization for fleet management apps, boosting operational efficiency by 30%.
- Implemented REST API integrations with BLoC, GetX, and Provider, applying MVC, MVVM, and Clean Architecture to streamline development and reduce code maintenance by 50%.
- Engineered scalable solutions with Firebase (Firestore, Auth, Cloud Functions, Realtime Database), supporting applications with 50,000+ active users.
- Translated Figma designs into pixel-perfect Flutter UIs, enhancing usability and reducing onboarding time by 40%.
- Contributed to Android app development, focusing on performance optimization, responsive layouts, and smooth API/database integration.

Center for Advance Solutions | Bahawalpur, Punjab

Senior Flutter Developer | January 2024 – September 2024

- Developed Android applications using Java, integrating RESTful APIs with Retrofit for efficient backend communication.
- Optimized application workflows by implementing clean coding practices and modular architecture, reducing bugs and maintenance effort.
- Collaborated with cross-functional teams to deliver user-focused Android solutions, ensuring scalability and smooth integration with backend services.
- Enhanced UI performance by 40% through the adoption of Jetpack Compose, modernizing interfaces and improving responsiveness.
