Summary

I'm a software engineer with a BS (Honors) in Software Engineering, focused on Android and Flutter app development. I enjoy creating apps that are fast, reliable, and easy to use. I'm good at picking up new technologies quickly and solving tough problems. I'm always looking to learn more and aim to build high-quality, modern software that meets users' needs.

Skills

Technical Skills

- **Technologies:** Frontend & Backend Developer, Flutter App Developer , Android App Developer , Dart Language , Java Language ,
- **Version Control:** Git, GitHub

Soft Skills

- Communication | Problem-solving | Teamwork | Time Management

---

Projects:

- **Car Rental App:** Developed a car rental app with booking, location tracking, and secure payment integration for seamless user experience.
- **Losail App:** Built Losail app featuring user authentication, interactive UI, and real-time data for enhanced user engagement.

- **Developed face detection:** app using machine learning, enabling real-time recognition with high accuracy and performance.
- **VPN App:** Developed a secure VPN app with encrypted connections, server selection, and user-friendly interface for privacy.

Experience

Android Developer

CAS Software House | Bahawalpur, Punjab | 2022 – 2023

- Developed and maintained Android applications using Java, focusing on performance, responsiveness, and user-friendly interfaces.
- Successfully delivered multiple projects, showcasing strong problem-solving abilities and a keen adaptability to new technologies.
- Designed and developed cross-platform mobile applications using Flutter, ensuring high performance and a seamless user experience across Android and iOS platforms
- Collaborated with UI/UX designers and backend developers to deliver polished and functional mobile solutions.
- Utilized Git and GitHub for version control and collaboration, ensuring smooth development workflow.

Flutter Developer (Internship)

Codes Thinker | Bahawalpur, Punjab | Sep 2024 – Present

Successfully completed a 4-month internship as a Flutter Developer, with a focus on designing and maintaining cross-platform mobile applications aimed at delivering intuitive and seamless user experiences.

- Implemented pixel-perfect UI from high-fidelity designs, ensuring 100% design accuracy in collaboration with designers.
- Resolved frontend bugs, layout issues, and API errors to enhance application stability and user experience.
- Adopted modern frontend workflows with Git, enhancing team collaboration, code management, and deployment efficiency.

Education

INTERMEDIATE

Punjab Group College │ICS│ Bahawalpur, Punjab

- Gained expertise in solving complex mathematical problems, understanding mechanical principles.

GADUATION (PRESENT)

Islamia University │BS Software Engineering│ Bahawalpur, Punjab

- Developed strong problem-solving skills through advanced mathematics and understanding of core mechanical engineering principles.
